...FREEDOM ROCK, that is. WRSE FREEDOM brings you the rock you most want to hear, beginning weekdays at 5 p.m., Saturdays at 7 p.m., and Sundays at 9 p.m. We are with you every night until midnight--the Cinderella hour, but don't worry, we don't turn into a pumpkin, we return the very next day to bring you more great FREEDOM ROCK. And you won't be bothered by commercials, because WRSE is completely, without a doubt 100% NON-COMMERCIAL!!!!

Yes, friends, FREEDOM IS IN THE AIR, and you can join in the spirit and pick up some great vibrations--not on your Ouija board--on your FM dial at 88.7.

PRESENTING...

W.R.S.E. ALBUM HIGHLIGHT

I have it from good sources that the next single to be released from Cat Stevens' CATCH BULL AT FOUR album will either be "Can't Keep It In" or "Eighteenth Avenue." Sales from his album hit one million dollars within 3 weeks after its release last October. Rumors have it that Cat Stevens was confined to a hospital because of a serious illness. This would explain the extended period between his last two albums. Currently CATCH BULL AT FOUR occupies the 18th spot on BILLBOARD's Top 200 LP's & Tape List.

But music is not all that we offer you on WRSE-FM. For instance, if you would like to exercise your mental capabilities or pick up a few famous names to drop casually in and out of your conversations, then the WRSE IDEA series is for YOU.

On Saturdays from 5 to 7 p.m. IDEAS IN ECOLOGY will discuss the ever increasing problems of overpopulation, pollution. Sundays from 5 to 7 p.m. bring IDEAS IN POLITICS featuring local and national speakers.

This informative little guide has been brought to you by the Freedom Pix People: Chris Kurth, Ross Peckat, Mary Ann Latko, and Kim Fielder.
